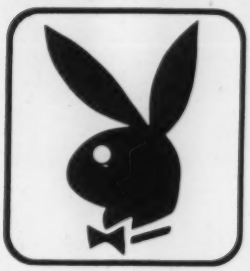
THE PLAYBOY INDEX



to
VOLUME XXXI
January 1984
through
December 1984

HOW TO USE THE INDEX

This volume contains a complete index to editorial material published in PLAYBOY from January 1984 through December 1984. Three types of entries are used in the indexing: title, contributor and subject.

Title entries include fiction, nonfiction, pictorials, service features, regular departments, reader-related features, books, recordings, movies and theatrical reviews. Restaurants, resorts and night clubs are listed by name of establishment.

Contributor entries are arranged alphabetically by the last name of the contributor, followed by a parenthetical description of the contributor's role (author, illustrator, photographer). A contributor may appear more than once if his contribution to the magazine has been in more than one capacity (e.g., author and illustrator).

Subject entries cite the item's title and the author of by-lined material. Individuals such as photo subjects and personalities are listed by last name; localities are listed by city; institutions and events are listed in the manner in which they are discussed in the published item. To avoid repetition, when a serialized story appears under a subject entry, only the first part of the series is referenced.

The last line of each entry includes the type of work, the issue date and page number of publication of the item.

All entries are arranged alphabetically by the first significant word (disregarding A, An and The). Titles beginning with a numeral are listed as though the numeral were spelled out. When more than one reference is listed under one heading, the listings are arranged in chronological order, the most recent appearing first.
